

Origami Jet

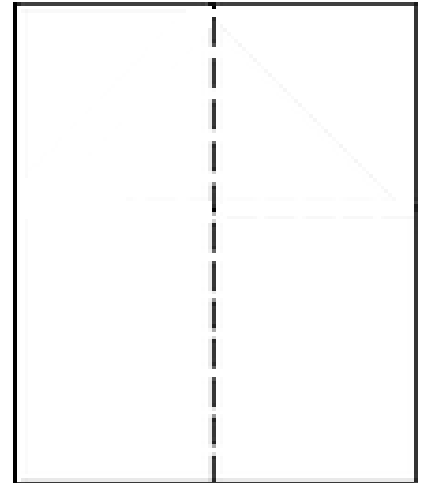

Model Instructions

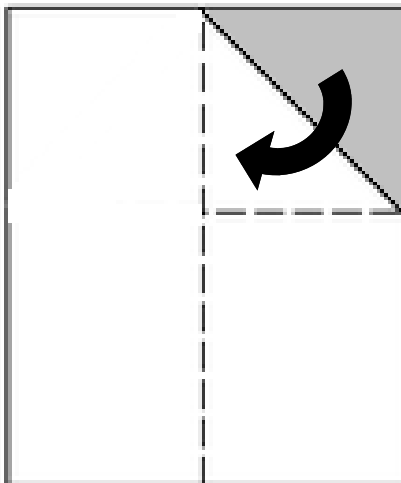

1. Begin with a rectangular sheet of paper.

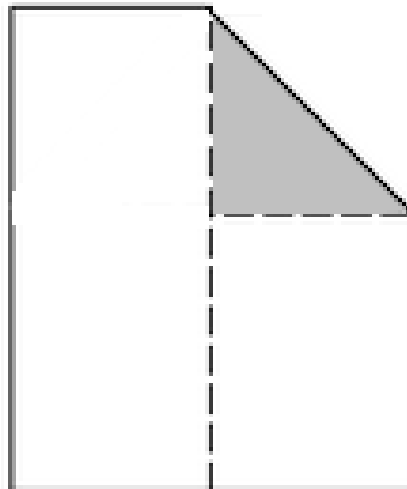

2. Fold the paper lengthwise, then crease the fold.

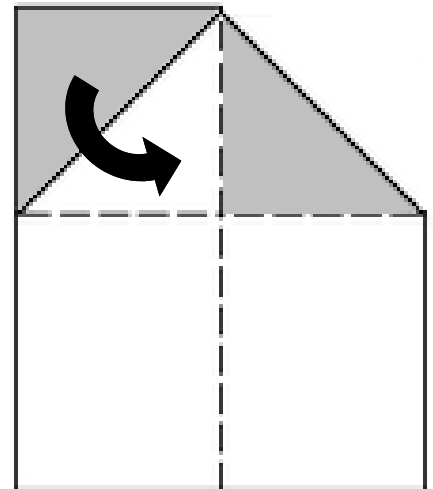

3. Unfold the paper and lay it on a flat surface.

4. Fold the top right corner to the center line.

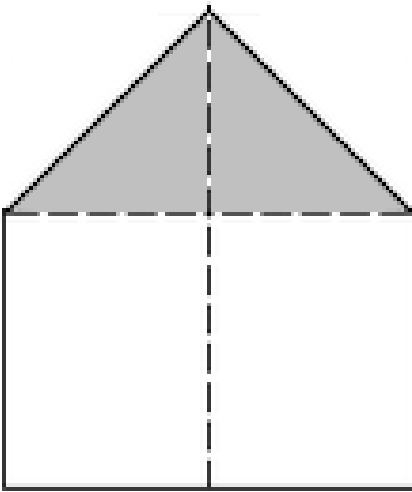

5. Crease the diagonal fold.

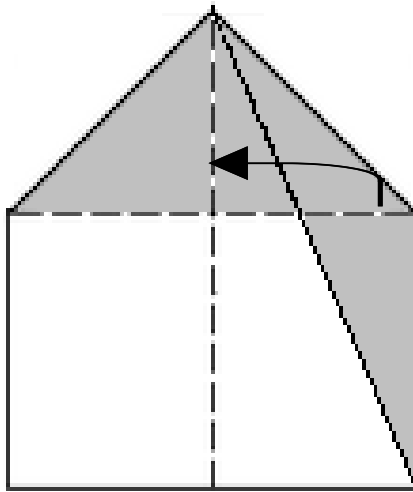

6. Fold the top left corner to the center line.

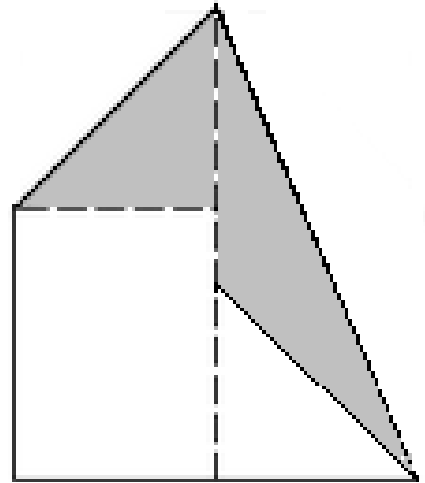

9 more steps >>

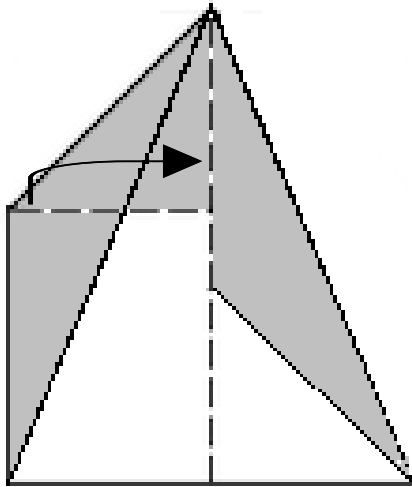

7. Crease the left diagonal fold.

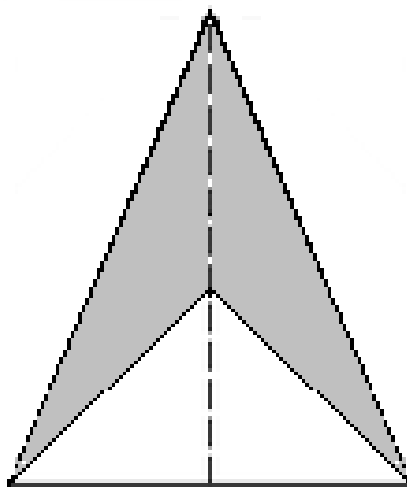

8. Fold the far right corner to the center line.

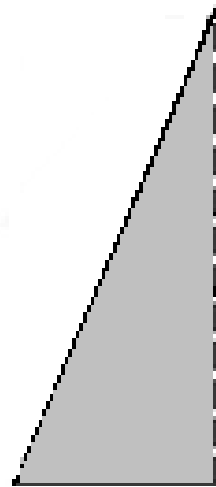

9. Crease the new right fold.

10. Fold the far left corner to the center line.

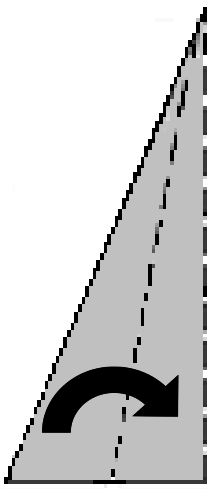

11. Crease the new left fold.

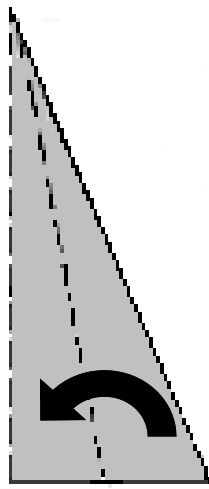

12. Fold the shape length-wise along the center line.

Only 3 more steps >>

13. Fold the top right “wing” down so its top edge touches the bottom of the “jet,” then crease the fold.

14. Fold the top left “wing” down so its top edge touches the bottom of the “jet,” then crease the fold.

15. Lift the wings, then fly your jet!
